95%
- **JNV Ramkhiriya Panna, Madhyapradesh**  
Intermediate 2018  
87.6%
- **Dr. B R Ambedkar National Institute of Technology Jalandhar, Punjab India**  
B. Tech 2019-2023  
7.96

### Skills

- HTML, CSS, Javascript, Django
- CPP and Python
- Data structure and algorithms
- DBMS, SQL

### Projects

- **E- Commerce Website**  
We can see the specifications of the product that we select. We can add it to the cart, also can place the order and it will provide the facility to track the order too.  
It has provided with the help and support page where customer can reach out to us for any query regarding delivery, product quality, etc.
- **Basic banking system**  
It's a banking system in which we can send money to the user using his/her email and name. Once user has sent the money the transaction will be shown in the Transaction history page. This way we can have the record of our transactions to other people

### Interests

- Stock markets

### Languages

- Hindi
- English
